- Adaptability

EDUCATION

Master's degree in Machine Learning - Computer Science

Universidade do Minho

2019 - 2021

Bachelor's in Computer Science

Universidade do Minho

2015 - 2019

PROFILE

I'm a Salesforce Developer with a comprehensive background in Salesforce Platform customization and development. Proficient in Salesforce technologies such as Apex, Visualforce Pages and Lightning Web Components. Ensuring the quality and performance of the solutions through testing and debugging. Committed to continuous learning, staying up-to-date with the latest Salesforce releases and best practices.
I'm now seeking new challenges where I can further leverage my skill set and passion for technology.

WORK EXPERIENCE

Salesforce Developer - Senior Analyst

Accenture   2021 - Current

- Designing and developing custom user interfaces using Visualforce Pages, Aura Components and Lightning Web Components
- Writing unit tests and performing code reviews to ensure the quality and stability of the solutions developed
- Implementing complex business logic, triggers, batch processes, and integrations with external systems using Apex
- Setting up user profiles, roles, permission sets, field-level security, and sharing rules to control access to data and functionality
- Collaborating with stakeholders to gather and analyze business requirements, translating them into technical specifications for Salesforce solutions

Data Scientist - Internship

Celfocus   2020 - 2021

- Collaborated with the Quality Assurance (QA) team to integrate AI models into existing toolsets, developing a plugin to automate the process of identification and classification of vulnerabilities in authentication cookies
